

CLIMATE ZONES

MAP

Arid

Mediterranean

Temperate

Tropical

Polar

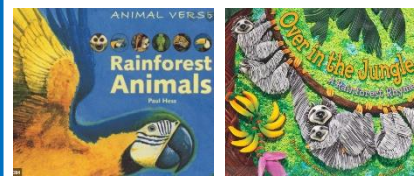

WHAT WILL WE BE LEARNING?

- How to identify lines of latitude.
- The location of climate zones.
- Comparison of climates.
- The weather patterns in a climate zone.
- How to write a weather forecast.
- The characteristics of climate zones.

BOOKS

CROSS CURRICULAR

English – Reading information books

Maths – Graphs and charts

Computing – Digital/Computer mapping

SMSC – New environments and how people live

WHAT GEOGRAPHICAL SKILLS WILL WE USE?

LOCATIONAL → PHYSICAL → HUMAN → GEOGRAPHICAL SKILLS AND FIELDWORK

Map work – Identify lines of latitude and the location of climate zones on a map.

Physical – Identify the characteristics of different climate zones.

Human – Recognise the effect climate change is having on different climate zones.

Compare – Compare the weather in different climate zones.
